VALDUNES MOUNTAIN SAFETY

COMPLIANCE TO EN 13979-1, EN 13262 AND WAG TSI

A wheel specifically designed for high thermal stress load and high braking performance.

**HIGH SAFETY LEVEL
PROVEN DESIGN**

EXTENSIVE RANGE OF WHEELS AND WHEELSETS

Diameter, load, network,
wide range of railway approvals.

NOISE DAMPING SOLUTIONS:

modular damping systems, with e.g. composite vibration absorbers or composite brake blocks coupled with low stress wheels.

ABSORBED BRAKING POWER

Up to 50 kW for 45 min.
