

LIGHT RAIL

VUT™ RESILIENT WHEEL

TAILOR-MADE SOLUTIONS, BECAUSE YOUR PROJECT IS UNIQUE

- Design constraints on unsprung mass and dimensions,
- requirement on service life and environment impact.

MAINTAINABILITY

Easy and quick replacement
of tyres and rubber elements.

RUNNING COMFORT

For the passenger, the vehicle and its track.
Efficient reduction of shocks and vibrations.

NOISE REDUCTION

MG-Valdunes resilient wheels decrease
rolling noise and squealing noise in curves.

A PROVEN TECHNOLOGY

Some of our references: Alstom, Bombardier, Siemens, Skoda...
Transportation systems equipped with VUT™ wheels: Bordeaux, Lyon, Mulhouse,
Paris, Strasbourg, Valenciennes (France), Dublin (Ireland), Melbourne (Australia),
Barcelona, Tenerife (Spain), Tunis (Tunisia)...
